

16<sup>th</sup> Symposium

# Urology Arena

Complications  
in urology:  
prevention and  
management

December 7, 2018  
Kursaal Allegro Bern  
Bern, Switzerland

Invitation

# Preamble

Complications are a great nuisance for patients and doctors alike and it is of utmost importance that we as Urologists are able to deal with the complications of our treatments. It is also our responsibility to take all reasonably possible measures to prevent complications from happening in the first place.

However, even the most precautionary physicians will have their share of inadvertent outcomes. This being the case, we have to make sure that at the very least we can learn from our mistakes or even better: we can share our inglorious experience to give our colleagues the possibility to learn from it as well.

These issues – prevention and management of complications – will be highlighted during the 16<sup>th</sup> Urology Arena in Bern.

Complications of the most common urological operations will be discussed as well as relevant side effects and complications from the most frequently prescribed medical therapies. The video session will focus on complications of laparoscopic procedures based on original footage from real life cases. Additionally, the program features a very interesting presentation not about treatment related outcomes but about the management of “complicated” patients in general.

Last but not least all participants are more than welcome to share their own experience and we aim to have interesting discussions on all the topics presented by the distinguished panel of national and international experts.

We look forward to seeing you in Bern!

Best regards,

PD Dr. med. Massimo Valerio,  
Lausanne, CH

Prof. Dr. med. Michael Müntener,  
Zurich, CH

PD Dr. med. Rätö T. Strebel,  
Chur, CH

Prof. Dr. med. Stephen Wyler,  
Aarau, CH

The participation at the Urology Arena will be accredited with 6 credits by the Swiss Society for Urology.

# Program

## Complications in urology: prevention and management

08.30–09.30 Registration/Coffee

### 09.30–09.35 **Introduction**

*Prof. Dr. Stephen Wyler (Aarau, CH)*

### 09.35–10.15 **Complications of transurethral procedures**

*Prof. Dr. Hans-Jörg Danuser (Luzern, CH)*

*Chaired by Prof. Dr. S. Wyler/Prof. Dr. T. Gasser*

### 10.15–10.40 **Coffee break**

### 10.40–11.20 **Complications of medical treatment**

*Dr. David Niedrig (Zurich, CH)*

*Chaired by Prof. Dr. M. Müntener/Dr. K. Lehmann*
